This is the result of a google search for 'ict consult' which reveals the online confusion about what is the location of my address. I've lived at **27 West Dean** since the early 1970s and I run my businesses from **28 West Dean**. Some time, possibly in the 1990s, somebody at a local authority decided, without any consultation, that addresses in West Dean needed to be identified with a road name. Hence, **27 & 28 West Dean** are identified as being half way up Rectory Hill rather than the **ICT Consult** location on this map. This google search conducted on 23 July 2019.
